

## **DETAILED ACTION**

Claims 1, 14-16, 18, 23, 24, 27, 28, and 30-35 are pending in the instant application. Claims 30-35 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to non-elected subject matter. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference which anticipates one group would not render obvious the other. Claims 1, 15 and 28 are rejected. Claim 14 is objected. Claims 16, 18, 23, 24, and 27 are allowed.

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 15, 2011 has been entered.

### ***Response to Amendment and Arguments/Remarks***

The amendment and arguments/remarks filed on February 15, 2011 have been fully considered and entered into the application. With regards to the 35 U.S.C. 102(b) rejection as being anticipated by WO 02/057236 and the claim objections, the grounds for rejection and objection have been found to be moot in view of Applicant's amendment and the rejection and objections have been withdrawn.

***Claim Rejections - 35 USC § 102***

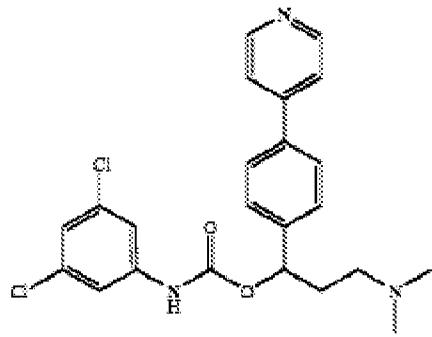

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 15 and 28 are rejected under 35 U.S.C. 102(a) as being anticipated by US 2003/0092715 A1.

US 2003/0092715 A1 discloses compounds and pharmaceutical compositions containing one or more of the compounds (see abstract), such as the compound

(see Example 33, [0276]) which anticipates a compound of the instant claims.

***Claim Objections***

Claim 14 is objected to because of the following informalities: the claim depends on a previously canceled claim. Appropriate correction is required.

***Allowable Subject Matter***

Claims 16, 18, 23, 24, and 27 are allowed. No prior art was found.
